

*Your supplier of
Wooden trays and trivets*

Assortment 2019

handmade in Sweden

Formpress is a family business on the island of Öland, situated to the East of the Swedish mainland. Formpress was founded in the Fall of 1996 and the first tray was produced in the following spring, trays remain the core of our business. Throughout the years the products have become more varied and our birch-veneered trays have appeared in an increasing number of variations. The stock has been widened to include products such as coasters, sandwich trays, trivets and cutting boards etc.

All of our products are handmade, one by one, crafted in birch veneer harvested from sustainable forests from Scandinavia. This means that every product that leaves our factory is unique. In short, it is true craftsmanship.

In 2016 we updated and expanded our small factory and today have the privilege to work in new, up-to-date facilities. As we were getting cramped this was necessary in order to develop as positively as we have in the past. Formpress today employs about 40 people.

Our ability to utilize the know-how that helped found Formpress is just as important to us as investing in new knowledge and the dedication that each individual brings to the company. A growing focus on the international market also places new demands on us.

Our products are parts of the Interior basics globally and is neither sensitive to economic fluctuations or trends.

By delivering results that exceed expectations we are proud to have gained the confidence of some of the world's leading brands.

Suggestions for printing on the back

Here are four suggestions that might give you a hint on how the back of the tray could look like.

The birch décor or just a white background is the most common choice.

We would very much like to be mentioned in some way on our products.

The back is a perfect canvas for storytelling.

100% ink coverage is not recommended. Using too much ink on the back can affect the price and the dishwashing durability of trays.

Our products are FSC-certified.

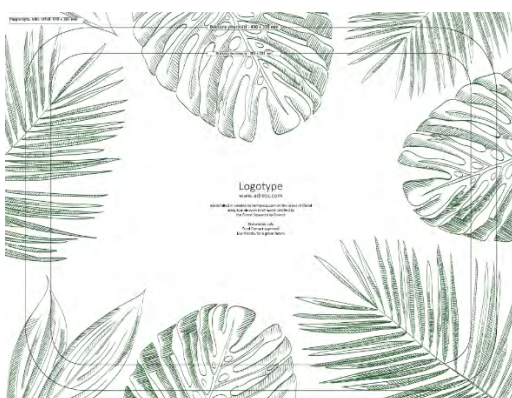

Don't hesitate to ask us if you have any questions.

www.adress.com

Handcrafted in Sweden by formpress.com on the island of Öland
using Scandinavian birch wood certified by
the Forest Stewardship Council

Dishwasher safe
Food Contact approved
Eco-friendly for a green future

You are now one step closer to holding a Formpress Tray in your hands!

All our trays are handmade, one by one, produced with FSC-certified Scandinavian veneer from birch wood in our factory on the isle of Öland. Every year our trays undergo extensive tests (EU) for Food Contact safety, formaldehyde, stain resistance, etc. We are proud to present an environmentally friendly, Swedish-made sustainable product. We do not use any solvents or water in our production, which means that our employees are not exposed to any harmful substances.

All our products are made with veneer from birch wood apart from cutting-boards and pot trivets which are made of MDF (compressed wood fibre material).

Why choose a tray made by Formpress?

- Manufacturing takes place on the Isle of Öland, Sweden
- All our products are made by hand, one-by-one
- Our products are FSC-certified
- All our trays can be made with your own custom design
- We digitally print your designs using UV-Proof, water-based ink
- Flexibility in small and large quantity orders
- You can easily and quickly order and receive samples and sample collections. Our production time for samples is approximately one week and for general orders about three to four weeks
- We deliver worldwide
- High quality
- All products are made using recyclable and sustainable materials
- Worn out trays are sorted as combustible waste
- No water is used in our production
- All of our trays are Food Contact Approved
- Surface tested for oil, alcohol, tea, coffee, wine and more (stain proof)
- Tough trays, can withstand regular and industrial dishwashing in temperatures up to 95° C
- Freezer friendly down to -20° C
- Sturdy and strong composition and construction, easy and comfortable to hold
- Light-weight, but can hold a heavy load
- Long-lasting quality ensures cost effectiveness
- All of our trays have rounded edges around the rim because:
 - a. It makes the product more comfortable to hold.
 - b. The protruding rounded edge acts like a bumper, protecting the lacquer and design from hits and bumps.
 - c. The rounded edges naturally divert directed high pressure water and takes less of an impact than a flat surface edge, making the product safe for high pressure dishwashing.
